- Xcode
- Android Studio
- Eclipse
- Komodo Edit
- Git
- FileZilla
- MySQL Workbench
- phpMyAdmin
- Adobe Illustrator / InDesign
- Postman
- Chrome Dev. Tools

EXPERIENCE

Grouple

August 2014 - Present

Social Android application for getting together with friends and participating in social events. Users may communicate via live chat communication and earn fun badges and experience for events they attend. Senior project, led team of 3, practiced agile (SCRUM).

[Google Cloud Messaging, RESTful Web Services]

Currently working on a javascript version of the Grouple as a personal project. Will be packaging it together with Phonegap to run native cross-platform out of the box. Plans to be completed and in stores by 1st quarter 2016.

[Angular, Node, Cordova, Browserify, Gulp, Jasmine/Karma]

EDUCATION

Purdue University, Fort Wayne
BS Computer Science
Minor Mathematics

3.1 GPA

May 2015

INVOLVED

IPFW Men's Volleyball

2010-2015

Competed in division 1 volleyball throughout college. Engaged in team practices and film sessions more than 20 hours weekly for the better part of all semesters.

N. Kingstown Volleyball Camps

2011-2015

Coached the game of volleyball to boys and girls ages 12-18. Two weeks of camp each summer.

Liquids

July - August 2015

Cross platform commerce application for a beverage delivery business based out of Puerto Rico. Project paused, client was unable to attain a license.

[BrainTree Payment, Cordova]

Approach LLC (Internship)

June - August 2014

Small cloud programming company that created a framework for developing applications with a different, innovative new 'approach'. Learned the architecture, translated .C class to a Java class, practiced android development by setting up the client side of a forum application.
